“THE NEXT GENERATION OF
DUNNAGE AIR BAGS”

For when
rigidity
means more
than
elasticity

Easy to
use on
single or
double
stacks

TURBO INFLATION SYSTEM

The only patented gauged turbo inflation tool on the market..

Inflates any size and type of bag four times faster and still allows you to gauge the pressure accurately.

Metal Turbo Flow inflator available for use on lightweight and level 1 bags. No gauging required and the bag can not be over inflated.
